

ANNUAL REPORT 2018-2019

OUR MISSION

The Bronx River Alliance serves as a coordinated voice for the river and works in harmonious partnership to protect, improve and restore the Bronx River corridor so that it can be a healthy ecological, recreational, educational and economic resource for the communities through which the river flows.

The Alliance works in close partnership with the New York City Department of Parks & Recreation and over 100 community based organizations, regional non-profits, businesses and all levels of government to achieve these goals.

Dear Friends of the Bronx River,

Every year, we make so much progress together in our efforts to reclaim the Bronx River as a healthy resource for the communities through which it flows. This Annual Report encompasses two years of that work, and there is so much to share with you! Before we get into the numbers and metrics, let us call out two emerging programs developed over this period to connect communities with the beautiful Bronx River in new ways.

In 2018, the Bronx River Greenway hosted an extraordinary amount of **public art**. Installations and performances brought art and environment together in a creative mix that engaged local residents like never before, including:

- A dance performance viewed by canoe! “From the River’s Mouth” was produced by Angela’s Pulse and explored themes of immigrants’ connection to water, both in their homelands and in the Bronx.
- Three art installations in Concrete Plant Park created by local Bronx artists who were selected through a participatory process.
- 15 art installations scattered through Starlight Park, produced by the Bronx River Art Center in celebration of the centennial of the 1918 Bronx International Exposition of Science, Arts and Industries, which occurred on the same site.

In addition to art, we’ve been exploring the **history and cultures of the indigenous people** who once lived along the Bronx River. We’ve created new programs to surface and celebrate indigenous cultures, particularly through our canoe trips. Our Eastern Woodlands Experience enables visitors to explore the life of the Lenape people and was developed by Alliance Recreation Coordinator Rodrick Bell, himself a descendent of the Algonquin Powhatan Tribes. As Rodrick says, “I wanted to create a space to help my community redevelop a love and respect for our natural resources. People forgot how sacred this natural resource was. It’s important that we give it to the generation after us in better condition than we received it.”

There are myriad ways communities around the world connect to their rivers, from the mundane to the spiritual. Here in NYC and in the Bronx, we have cut ourselves off from our rivers for decades. Join with us as we continue our long journey of reconnecting to the Bronx River for relaxation, for scientific inquiry, for stewardship... and also for artistic inspiration and a connection to those who came before us.

Yours in the Bronx outdoors,

2018 HIGHLIGHTS

BUILDING CAREER PATHWAYS THROUGH RIVER RESTORATION

The **Bronx River Conservation Crew** opens opportunities to Bronxites to develop careers in ecological restoration and parkland management. They are to thank for the dramatic improvement of the river!

WITH YOUR SUPPORT, PADDLERS TRAVELED BACK IN TIME

Over 1,500 paddlers enjoyed the scenic beauty of NYC's only freshwater water trail and learned about its ecology and history. Through our new Eastern Woodland Exhibit, visitors explored the life of the Lenape, the indigenous people who once lived along the Bronx River.

BRONX RESIDENTS LED THE WAY!

Concrete Friends, community partners like YMPJ, and community residents helped bring close to 4,000 people to enjoy educational, recreational, and ecological programming at Concrete Plant Park.

ANOTHER MILESTONE FOR COMMUNITY ACCESS TO THE RIVER

For decades, communities in the South Bronx have lacked access to the Bronx River waterfront. But together, we are changing that! The \$55 million Starlight Park expansion made major progress in 2019 when polluted lots were replaced with waterfront parks and a new pedestrian bridge was completed. When complete, it will double the size of Starlight Park, connect to Concrete Plant, and open up community access to the river.
